

## Community with Solutions Request for Endorsement

My name is Archie Williams with the Community with Solutions Organization. Our group is very concerned about the current state of our community, the very high violent crime, police corruption, and lack of trust. We have been looking for solutions that can help. We believe we have found one - the Community Support Program. This program will help both the community and law enforcement to provide unbiased information that will help solve unsolvable crimes, provide oversight to police actions and support defense attorneys and public defenders. In addition, it enables defense attorneys and public defenders to verify officer statements as to actions on the ground at the time of an incident. The goal is to create an environment where trust, accountability, and safety are promoted and ultimately, bring about a better tomorrow for our communities.

I have included information in the package that provides more detail. Additional information is available at [communitywithsolutions.com](http://communitywithsolutions.com) or at [communitysupport.info](http://communitysupport.info). We are asking for your endorsement to be presented to the Baltimore City leadership. Please sign the attached endorsement letter and return to me. Message, email, or mail is fine. We greatly appreciate your help and support making our community a better place.

Sincerely,

Archie Williams  
Community Organizer / Activist  
Community with Solutions
